

Capabilities Overview

Service starts with a spark.

The kind that ignites ideas, systems, and missions built to last. Diaconia designs the invisible frameworks that keep federal operations moving: data that talks, tech that learns, security that holds. Every capability we offer exists to strengthen those who serve others.

Qualified Expertise

Data & Applied Intelligence

- Data Visualization and reporting
- Enterprise big data management
- High-performance computing (HPCaaS)
- Predictive and prescriptive analytics
- AI/ML model development and deployment

Cloud Computing

- Cloud strategy & readiness
- Cloud architecture & security
- Cloud migration support
- Cloud operations & managed services
- Cloud DevOps & automation
- Multi-cloud / Hybrid cloud solutions

Advisory Services

- Strategy & Governance
- Project Mgmt Office (PMO)
- Change Mgmt
- Knowledge Mgmt
- Logistics
- Financial Mgmt

Enterprise Tech Modernization

- IT modernization strategy/roadmap dev
- Cloud & infrastructure optimization
- Legacy application refactoring
- DevSecOps adoption
- Zero trust architectures & identity management
- Enterprise collaboration tools deployment
- Integration of emerging tech
- Application sustainment / O&M

Cyber Security

- Continuous security monitoring / real-time monitoring
- Rapid identification/analysis/containment/remediation of security incidents
- Threat intelligence & hunting
- Vulnerability management
- Log management & SIEM operations
- Endpoint detection & response (EDR)
- Compliance & Risk Management
- NIST/FISMA/FedRamp standard compliance

Elevate your tech.

Transform your mission.

Experience You Can Trust

Capability	Who We Served	How We Served
Cyber Security	Army, Air Force, DEA	Threat Intelligence & Risk Management, ISSO Support, Incident Response, Network & Application Security, GRC
Data & Applied Intelligence	WHS, Army, FDA, CFPB, IRS, NASA, DOS	Enterprise Data Engineering, AI / ML for Advanced Analytics, Modernized Data Infrastructure, Data-Driven Decision Enablement
Enterprise Technology Modernization	NASA, Space Force, FDA, IRS, USDA, CFPB, DOS	Application Migration & Development, Robotic Process Automation, Cloud & DevSecOps, Backend Modernization, Software Development

All it takes is a single

Spark

Service

We lead with purpose, putting mission and people first in everything we do.

Problem-Solving

We're fluent in turning complexity into clarity.

Agility

We adapt fast, think creatively, and move with intention.

Resilience

Even when the mission is unsteady, we lean in boldly, and remain steadfast.

Knowledge

We invest in talent, technology, and training to shape what's next.

Built for the mission. **Driven by service.**
